MATTHEW P. DUNN

Web Designer/Developer | Tech Specialist | Creative Media and AI Automation

Web designer and developer with 20+ years of experience across web production, front-end development, and technical site maintenance. Strong focus on applying AI to accelerate design and development, streamline content production, and build repeatable workflows for teams. Trusted to support and scale large, multi-brand websites and portals in decorative concrete, gardening, and outdoor lifestyle.

PROFESSIONAL EXPERIENCE

Lead Web Developer/Designer, ConcreteNetwork.com, Inc.

Apr 2002 to Present

- Built, hosted, and maintained websites for 1,000+ client accounts across ConcreteNetwork.com, LandscapingNetwork.com, and GardenDesign.com
- Managed and scaled flagship industry resources, ensuring performance, reliability, and strong user experience across high traffic sites
- Developed custom page layouts, responsive design systems, and front-end enhancements across multiple brands and site templates
- Integrated AI into web, content, and design workflows to improve speed, consistency, and output quality
- Supported technical infrastructure including server configuration, IIS administration, and Azure SQL troubleshooting

Designer, Josh Endres Studios

Jun 2024 to Present

- Design and build websites, wireframes, and front-end mockups (Figma, HTML/CSS/JS)
- Create branding and marketing assets including logos, print collateral, ads, and social/email graphics (Illustrator, InDesign)
- Produce presentations, event graphics, and photography, using AI-assisted workflows to improve speed and consistency

Videographer/Photographer, Grace Point Fellowship

Aug 2018 to Jan 2025

- Produced weekly announcement and promotional videos; captured promotional photography
